Evaluation of Compliance with Environmental Legislation (Fiscal 2023)

In FY2023, in the category of compliance with environmental laws and regulations, one warning was received from government authorities in relation to the quality of plant wastewater. However, we have resolved this issue by completing corrective measures and filing a report.

Environmental Accounting

The Kyokuyo Group monitors cost-effectiveness by quantitatively managing environmental conservation initiatives from the viewpoint of cost, in the belief that this helps in making more efficient and rational decisions. When disclosing environmental conservation costs, we take the needs of various stakeholders into consideration and report the information in accordance with the Environmental Guidelines issued by Japan's Ministry of the Environment so that it can be compared with other companies.
